Re: U.S., et al., v. Reilly Tar and Chemical Corporation
File No. Civ. 4-80-469

Dear Warren:

I have enclosed the Definitions section of the draft Consent Decree, pages 18-26. Please review the definition of "Chemical Substances" as it appears on pages 21 and 22, to determine whether the chemical substances are substances which are thought to be associated with the refinery and wood treating operations of Reilly Tar at the St. Louis Park site. We want you to "flag" any substances which you believe are not the result of Reilly Tar's operations.

Since the Consent Decree is being negotiated this week, I would like you to review the definition of "Chemical Substances" and call me with your comments on Wednesday, May 22, 1985.

Thanks for your assistance. I look forward to hearing from you.

Very truly yours,

Dennis

Dennis M. Coyne
